2302031030111 Assignment-1

Here are the steps to create a git repository named as my enrolment number and add two folders name assignment 1 and assignment 2

Step 1= open your terminal or command prompt

Step2= navigate to the directory where you want to create the repository using the cd command

Step3= run the command git init "2302031030111" to create a new git repository name "2302031030111"

Steo4= navigate into the newly created repository using cd "2302031030111"

Step 5=run mkdir assignment1 to create the assignment 1 folder

Step 6=run mkdir assignment 2 to create the assignment 2 folder

Step 7= now your repository should have two folder name assignment 1 and 2

Step 8= you can add files to thius folder and commit your changes git command like git add and git commit

-m initial commit

That's it you are creates a git repository
